### **DEPARTMENT OF COMPUTER SCIENCE**

#### **Letter of Recommendation**

**Mubashir Iqbal** approached me for writing a letter of recommendation for his admission for post-graduate program. I am pleased to write this letter in support of Mr. Mubashir Iqbal who has been one of my students at the Department of Computer Science, COMSATS University Islamabad, Wah Campus.

During his stay at COMSATS, I found him one of the best students I dealt with. I have watched him growing and seen his talents and abilities not only in the classroom but outside its walls, when interacting with all types of people, as well. He is diligent, aggressive, and self-starter. He has a very inquisitive mind and does not wait to be told to investigate or analyze problems; he has the ability to recognize and initiate what needs to be done. Mr. Mubashir possesses a strong capability to undertake rigorous coursework and leading edge research activities. Furthermore, he can actively engage in numerous challenging tasks concurrently without compromising the work-quality.

One of his matchless talents is the ability to grasp technically strenuous material on his own and come up with genuine and striking ideas. Due to his creative mind and inherent hard working nature, Mr. Mubashir is expected to achieve a genuine development in any research area he will be involved in.

I believe that Mr. Mubashir would be an excellent addition to any research team. I hope you will also find Mr. Mubashir's attributes and potential attractive and I hope that you will favorably consider his application for the post-graduate degree in your University.

I wish him best of luck.

A handwritten signature in black ink, appearing to read "Dr. Muhammad Wasif Nisar".
